Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Thai Agro Energy Public Company Limited

I have reviewed the accompanying statement of financial position of Thai Agro Energy Public Company Limited as at 30 September 2015, the related statements of comprehensive income for the three-month and nine-month periods ended 30 September 2015, changes in shareholders' equity and cash flows for the nine-month period ended 30 September 2015, as well as the condensed notes to the financial statements. Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

Thai Agro Energy Public Company Limited

Notes to interim financial statements

For the three-month and nine-month periods ended 30 September 2015

1. General information

1.1 Corporate information

Thai Agro Energy Public Company Limited (“the Company”) was incorporated as a limited company and domiciled in Thailand and was transformed to be a public limited company under Thai laws on 18 October 2007. Its parent company is Lanna Resources Public Co., Ltd, which is a public limited company incorporated in Thailand. The Company operates in Thailand and is principally engaged in production and distribution of ethanol for fuel. The registered office of the Company is at 888/114, Ploenchit Road, Lumpini, Pathumwan, Bangkok.

1.2 Basis of preparation of interim financial statements

These interim financial statements are prepared in accordance with Accounting Standard No. 34 (revised 2014) *Interim Financial Reporting*, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, comprehensive income, changes in shareholders’ equity, and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

1.3 New financial reporting standards

(a) Financial reporting standards that became effective in the current period

The Company has adopted the revised (revised 2014) and new financial reporting standards issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2015. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company’s financial statements. However, some of these standards involve changes to key principles, which are summarised below:

TAS 19 (revised 2014) Employee Benefits

This revised standard requires that the entity recognise actuarial gains and losses immediately in other comprehensive income while the former standard allowed the entity to recognise such gains and losses immediately profit or loss, or other comprehensive income, or to recognise them gradually in profit or loss.

The Company has changed the recognition of actuarial gains and losses in the current period from an immediate recognition in profit or loss to an immediate recognition in other comprehensive income. However, the changes have no impact on the statement of financial position as at 31 December 2014, and the statement of comprehensive income for the three-month and nine-month periods ended 30 September 2014, presented as comparative information.

TFRS 13 Fair Value Measurement

This standard provides guidance on how to measure fair value and stipulates disclosures related to fair value measurement. Entities are to apply the guidance under this standard if they are required by other financial reporting standards to measure their assets or liabilities at fair value. The effects of the adoption of this standard are to be recognised prospectively.

This standard does not have any significant impact on the Company's financial statements.

(b) Financial reporting standards issued during the period and not yet effective

During the period, the Federation of Accounting Professions issued a number of the revised financial reporting standards (revised 2015) which are effective for fiscal years beginning on or after 1 January 2016. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards. The Company's management believes that the revised financial reporting standards will not have any significant impact on the financial statements when they are initially applied.

2. Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2014.

(Unaudited but reviewed)
